Description:

Full-color photos on flash cards present close-ups of a model demonstrating 500 American Sign Language (ASL) signs. The meanings, brief descriptions of hand and arm motions, and related words are listed on the reverse side of each card. Correct formations of hand shapes and facial expressions are clearly shown to eliminate any possible confusion regarding intended word meanings. Where appropriate, photos include directional arrows that show hand or arm movements. Each flash card has a hole in one corner to accommodate a metal ring included with the boxed set. Users can select and fit any combination of cards they please to combine relevant words and create statements, or to review signs that they have difficulty identifying. Here is an ideal method for recognizing and memorizing American Sign Language vocabulary--a

fine learning resource for all who plan to work with deaf people.
