## Description:

This is the single best book available on the Taliban, the fundamentalist Islamic regime in Afghanistan responsible for harboring the terrorist Osama bin Laden. Ahmed Rashid is a Pakistani journalist who has spent most of his career reporting on the region--he has personally met and interviewed many of the Taliban's shadowy leaders. *Taliban* was written and published before the massacres of September 11, 2001, yet it is essential reading for anyone who hopes to understand the aftermath of that black day. It includes details on how and why the Taliban came to power, the government's oppression of ordinary citizens (especially women), the heroin trade, oil intrigue, and--in a vitally relevant chapter--bin Laden's sinister rise to power. These pages contain stories of mass slaughter, beheadings, and the Taliban's crushing war against freedom: under Mullah Omar, it has

banned everything from kite flying to singing and dancing at weddings. Rashid is for the most part an objective reporter, though his rage sometimes (and understandably) comes to the surface: "The Taliban were right, their interpretation of Islam was right, and everything else was wrong and an expression of human weakness and a lack of piety," he notes with sarcasm. He has produced a compelling portrait of modern evil. --*John Miller* --This text refers to an out of print or unavailable edition of this title.

**From Library Journal** Afghanistan's position as a crossroads in Central Asia made it part of the 19th-century Great Game of imperialism and brings it to international strategic prominence once again. Rashid is a correspondent for the Far Eastern Economic Review who has covered Afghanistan's changing fortunes since the 1978 Soviet invasion. In his second book, he covers the origin and rise of the Taliban, its concepts of Islam on questions of gender roles and drugs, and the importance of the country to the development of energy resources in the region. His account of the Taliban's origins among the Pashtun refugees in Pakistani camps and their minimal education in Koranic schools from poorly educated teachers explains their lack of knowledge of the history and culture of their own country and of what it means to govern. The failed state that is now Afghanistan threatens to destabilize its neighbors by exporting both drugs and extremist views. Unlike Peter Marsden's *Taliban: War Religion and the New Order in Afghanistan* (Oxford Univ., 1998), this new work emphasizes the international implications of the Taliban and its government. A lucid and thoroughly researched account, it is recommended for academic and most public libraries. --*Marcia L. Sprules, Council on Foreign Relations Lib., New York*
